

Vendor Management Solution

Take the Hassle out of Vendor Management

We all know third-party vendor relationships open organizations up to added risks, but a mature, well organized vendor management program gives you more control and oversight. And at ViClarity, we're all about staying in control. With our technology platform you can onboard, evaluate and report on vendors with ease to save your team time and energy.

Are you ready to reduce manual work and say goodbye to your spreadsheets?

How ViClarity Streamlines Vendor Management

What to Expect When Onboarding ViClarity

Roadmap

4-12 Weeks*

Kick Off

Meet the team to create a communication plan and implementation expectations.

Analyze

Collect documents, templates and information that fit your requirements and processes.

Design

ViClarity builds a first draft of your solution and conducts an architecture review.

Approve

Review and fine-tune the designed solution until your organization is ready to approve the final module.

Onboard

Complete training and begin using the software for your processes, workflows and requirements.

Support

Engage Technical Support and Customer Success teams to ensure you use the software most effectively.

Not only is ViClarity one of the most user-friendly platforms on the market, but our onboarding, ongoing support and customer success also set us apart.

We assign each client a dedicated team of PMI certified project managers that leads platform setup and launch. This team provides expert tips for smoothly rolling out the system across your organization with minimal disruption. Implementation typically ranges from 4 – 12 weeks* based on project scope and client availability.

Once you're up and running, our Customer Success Team sticks with you throughout the partnership to ensure you use the system's full capabilities and stay up-to-date on industry trends. Our Technical Support Team is also available to handle questions.

*Typical range based on project scope and client availability.
